

OS-502D

5-Axis Dental Dry Milling Machine

Touch Screen

5 Axis

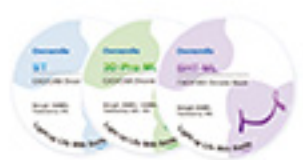

Support Dry

60000 rpm

Support Materials

Zirconia Block

PMMA

Dental Wax Block

PEEK

Product Size

Reliable capacitive touch screen, user friendly UI

9 Tool Changer

High Precision

Product Details

90° Vertical Milling

Create lifelike dentures with refined surface textures

60,000 rpm Spindle Speed

Accommodate complex implants and intricate shapes

0.02-0.04 dmm Precision

Precisely machine challenging angles and hard-to-reach areas

Resume Function

Seamlessly resume operations after unexpected pauses

9-Tool Automatic Changer

Boost efficiency with swift tool exchanges

Remote Machine Control

Operate the machine from anywhere for unparalleled flexibility

Product Accessories

Other Accessories

Protected Packaging

Clean

Protective Film

Protective Foam Layer

Export Wooden Box

OWNSMILE

Technical Data

Model	OS-502D
Size	631*479*685 mm
Weight	110kg
Max Spindle Speed	60000rpm
Max Power	1600W
Number of Axes	5
Rotation Angle	A:+360°B:+25°-115°
Tool Magazine Capacity	9 (Air tool)
Cooling Mode	Water cooling
Processing Method	Five axis, Dry milling,
Processable Materials	Zirconia, WAX, PMMA, PEEK
Voltage	220-230V/50-60hz
